

## AMENDMENTS TO THE CLAIMS:

Claim 1 (currently amended) A medicinal ~~product~~ composition for treating Acquired Immune Deficiency, cancer, and neurological diseases comprising:

(a) a therapeutically effective amount of an extract of ~~prunus armenica~~ *Prunus armeniaca*;

(b) a therapeutically effective amount of an extract and of ~~cocos nucifera~~ *Cocos nucifera*;

(c) a therapeutically effective amount of an extract and of ~~humulus lupulus~~ *Humulus lupulus*;

(d) a therapeutically effective amount of an extract and of germinated barley;

(e) a therapeutically effective amount of an extract and of mycete;

(f) a therapeutically effective amount of an extract of and the liquid obtained from alcoholic fermentation of the ~~grape juice of grapevines~~, juice from a grape;

(g) a therapeutically effective amount of an extract and of ~~musaze~~ *Musa* plants; and

(h) a therapeutically effective amount of an extract of ~~rubus~~ *Rubus* leaves, in each case as active ingredient.

Claim 2 (canceled)

Claim 3 (canceled)

Claim 4 (currently amended) The medicinal ~~product~~ composition according to Claim 1 characterized in that in addition to the extracts and/or component extracts in accordance with Claim 1 it comprises further comprising common carrier materials, auxiliary means and/or or additives, said composition being formulated as a and is made up in the form of a tablet or a

sugar coated tablet or a suppository or as drops.

Claim 5 (currently amended) The medicinal ~~product~~ composition according to Claim 1, ~~characterized in that the extract wherein said extracts~~ can be obtained by solid-liquid or liquid-liquid extraction ~~of the individual components or the active ingredient component mixture with the help of common extraction means,~~ and by subsequent partial or complete evaporation of the an extraction solution.

Claim 6 (currently amended) The medicinal ~~product~~ composition according to Claim 1 ~~characterized in that it is a question of whether there is wherein said extracts are obtained by~~ hot or cold extraction ~~as well as whether the extraction method is and by~~ continuous or discontinuous extraction.

Claim 7 (currently amended) The medicinal ~~product~~ composition according to Claim 4 ~~characterized in that the 6 wherein the~~ continuous extraction method is a Soxhlet extraction, perforation or a percolation, ~~while the the and the~~ discontinuous extraction method ~~can be a is~~ accomplished by shaking out, leaching out or digestion.

Claim 8 (currently amended) The medicinal ~~product~~ composition according to Claim 1 ~~characterized in that the extract wherein said extracts are obtained represents one of one fixed~~ active ingredient content ~~adjusted extract from one individual active ingredient or from the entire mixture of active components, which can be obtainable by means of maceration or percolation~~ using ethanol or an ethanol-water mixtures.

Claim 9 (currently amended) The medicinal ~~product~~ composition according to Claim 1 ~~characterized in that the medicinal product is a wherein said extracts are dry extract (extracta~~

~~sicca) and/or a or liquid extract (extracta fluidica) and/or a or viscous extract (extracta spissa).~~

Claim 10 (currently amended) The medicinal ~~product~~ composition according to Claim 1 ~~characterized in that it can be~~ wherein said composition is compounded in the form of a liquid to be taken in the form of drops or an aerosol or in the form of a solution for intravenous, intraarterial, intramuscular, subcutaneous or intralumbar injection or infusion.

Claim 11 (canceled)

Claim 12 (currently amended) The medicinal ~~product~~ composition according to Claim 1 ~~characterized in that the active ingredients~~ wherein said mycete is a chlorophyll-free, eukaryontic organisms, ~~especially protocista (fungus-like protista)~~ eukaryotic organism.

Claim 13 (canceled)

Claim 14 (withdrawn) The method of using components and/or extracts of prunus armenica and of cocos nucifera and of humulus lupulus and germinated barley or germinated rye, or germinated wheat and of mycete, and the liquid obtained from alcoholic fermentation of the grape juice of grapevines, and from musaze and from rubus leaves, for preparation of a medicinal product for treatment of Acquired Immune Deficiency Syndrome (AIDS).

Claim 15 (withdrawn) The method of using components and/or extracts or prunus armenica and of cocos nucifera and of humulus lupulus and germinated barley or germinated rye, or germinated wheat and of mycete and the liquid obtained from alcoholic fermentation of the grape juice of grapevines, and from musaze, and from rubus leaves for preparation of a medicinal product for treatment of cancer, malignant tumors, carcinomas and sarcomas.

Claim 16 (withdrawn) The method of using components and/or extracts of *Prunus armenica* and of *Cocos nucifera* and of *Humulus lupulus* and germinated barley or germinated rye, or germinated wheat and of mycete and the liquid obtained from alcoholic fermentation of the grape juice of grapevines, and from musaze, and from *Rubus* leaves for preparation of a medicinal product for treatment of diseases of the psyche or of the nervous system.

Claim 17 (new) The medicinal composition according to claim 1:

wherein said therapeutically effective amount of said extract of *Prunus armeniaca* is in the range from 10 wt% to 20 wt%;

wherein said therapeutically effective amount of said extract of *Cocos nucifera* is in the range from 10 wt% to 20 wt%;

wherein said therapeutically effective amount of said extract of *Humulus lupulus* is in the range from 10 wt % to 20 wt%;

wherein said therapeutically effective amount of said extract of germinated barley is in the range from 10 wt% to 20 wt%;

wherein said therapeutically effective amount of said extract of said mycete is in the range from 10 wt% to 20 wt%;

wherein said therapeutically effective amount of said extract of liquid obtained by alcoholic fermentation of said grape juice is in the range from 10 wt% to 20 wt%;

wherein said therapeutically effective amount of said extract of *Musa* plants is in the range from 10 wt% to 20 wt%; and

wherein said therapeutically effective amount of said extract of *Rubus* leaves is in the range from 10 wt% to 20 wt%.
